**GAMESTOP CORP.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**1. Basis of Presentation**

GameStop Corp. (together with its predecessor companies, “GameStop,” “we,” “us,” “our,” or the “Company”), a Delaware corporation, is the world’s largest multichannel retailer of physical and digital video game products and PC entertainment software. The unaudited consolidated financial statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

The unaudited condensed consolidated financial statements included herein reflect all adjustments (consisting only of normal, recurring adjustments) which are, in the opinion of the Company’s management, necessary for a fair presentation of the information for the periods presented. These unaudited condensed consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and the instructions to Quarterly Report on Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all disclosures required under GAAP for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the Company’s annual report on Form 10-K for the 52 weeks ended January 29, 2011 (“fiscal 2010”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. Changes in the estimates and assumptions used by management could have significant impact on the Company’s financial results. Actual results could differ from those estimates.

Due to the seasonal nature of the business, the results of operations for the 26 weeks ended July 30, 2011 are not indicative of the results to be expected for the 52 weeks ending January 28, 2012 (“fiscal 2011”).

Certain reclassifications have been made to conform the prior period data to the current interim period presentation.

**2. Accounting for Stock-Based Compensation**

For options granted, the Company records share-based compensation expense in earnings based on the grant-date fair value. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model. This valuation model requires the use of subjective assumptions, including expected option life, expected volatility and the expected employee forfeiture rate. The Company uses historical data to estimate the option life and the employee forfeiture rate, and uses historical volatility when estimating the stock price volatility. There were no stock options granted during the 26 weeks ended July 30, 2011 and the 13 weeks ended July 31, 2010. There were 1,177,000 options to purchase common stock granted during the 26 weeks ended July 31, 2010, with a weighted-average fair value estimated at \$7.88 per share, using the following assumptions:

	<u>26 Weeks Ended</u> <u>July 31,</u> <u>2010</u>
Volatility	51.6%
Risk-free interest rate	1.6%
Expected life (years)	3.5
Expected dividend yield	0%

**GAMESTOP CORP.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

In the 13 weeks ended July 30, 2011 and July 31, 2010, the Company included compensation expense relating to stock option grants of \$1.6 million and \$3.0 million, respectively, in selling, general and administrative expenses in the accompanying condensed consolidated statements of operations. In the 26 weeks ended July 30, 2011 and July 31, 2010, the Company included compensation expense relating to stock option grants of \$3.2 million and \$6.0 million, respectively, in selling, general and administrative expenses. As of July 30, 2011, the unrecognized compensation expense related to the unvested portion of our stock options was \$6.0 million which is expected to be recognized over a weighted average period of 1.3 years. The total intrinsic value of options exercised during the 13 weeks ended July 30, 2011 and July 31, 2010 was \$2.4 million and \$0.2 million, respectively. The total intrinsic value of options exercised during the 26 weeks ended July 30, 2011 and July 31, 2010 was \$10.0 million and \$1.2 million, respectively.

During the 13 weeks ended July 30, 2011, the Company granted 4,620 shares of restricted stock at a weighted average grant date fair value of \$25.95 which vest in equal annual installments over three years. During the 13 weeks ended July 31, 2010, the Company granted 60,000 shares of restricted stock at a weighted average grant date fair value of \$21.73 which vest in equal annual installments over three years. During the 26 weeks ended July 30, 2011, the Company granted 452,270 shares of restricted stock with a fair market value of \$20.90 per share. Of these shares, 372,270 vest in equal annual installments over three years and 80,000 vest over three years subject to performance targets based on fiscal 2011 operating results. The restricted stock granted during the 26 weeks ended July 31, 2010 was 742,680 shares with a fair market value of \$20.43 per share, which vest in equal annual installments over three years. During the 13 weeks ended July 30, 2011 and July 31, 2010, the Company included compensation expense relating to the restricted stock grants in the amount of \$3.3 million and \$4.4 million, respectively, in selling, general and administrative expenses in the accompanying condensed consolidated statements of operations. During the 26 weeks ended July 30, 2011 and July 31, 2010, the Company included compensation expense relating to the restricted stock grants in the amount of \$6.6 million and \$8.7 million, respectively, in selling, general and administrative expenses. As of July 30, 2011, there was \$17.7 million of unrecognized compensation expense related to nonvested restricted stock awards that is expected to be recognized over a weighted average period of 1.9 years.

**3. Computation of Net Earnings per Common Share**

A reconciliation of shares used in calculating basic and diluted net earnings per common share is as follows:

	13 Weeks Ended		26 Weeks Ended

**GAMESTOP CORP.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The following table contains information on restricted shares and options to purchase shares of Class A common stock which were excluded from the computation of diluted earnings per share because they were anti-dilutive:

	Anti-Dilutive Shares	Range of Exercise Prices	Expiration Dates
		(In millions, except per share data)	
13 Weeks Ended July 30, 2011	2.6	\$ 26.02 - 49.95	2017 - 2019
13 Weeks Ended July 31, 2010	4.4	\$ 20.32 - 49.95	2011 - 2020

**4. Fair Value Measurements and Financial Instruments**

The Company defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value accounting guidance applies to our forward exchange contracts, foreign currency options and cross-currency swaps (together, the “Foreign Currency Contracts”), Company-owned life insurance policies with a cash surrender value and certain nonqualified deferred compensation liabilities that are measured at fair value on a recurring basis in periods subsequent to initial recognition.

Fair value accounting guidance requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the observability of the inputs employed in the measurement. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are observable inputs other than quoted prices included within Level 1 for the asset or liability, either directly or indirectly through market-corroborated inputs. Level 3 inputs are unobservable inputs for the asset or liability reflecting our assumptions about pricing by market participants.

We value our Foreign Currency Contracts, Company-owned life insurance policies with cash surrender values and certain nonqualified deferred compensation liabilities based on Level 2 inputs using quotations provided by major market news services, such as Bloomberg and The Wall Street Journal, and industry-standard models that consider various assumptions, including quoted forward prices, time value, volatility factors, and contractual prices for the underlying instruments, as well as other relevant economic measures. When appropriate, valuations are adjusted to reflect credit considerations, generally based on available market evidence.

The following table provides the fair value of our assets and liabilities measured on a recurring basis and recorded on our condensed consolidated balance sheets (in millions):

	<u>July 30, 2011</u> Level 2	<u>July 31, 2010</u> Level 2	<u>January 29, 2011</u> Level 2

**GAMESTOP CORP.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

The Company uses Foreign Currency Contracts to manage currency risk primarily related to intercompany loans denominated in non-functional currencies and certain foreign currency assets and liabilities. These Foreign Currency Contracts are not designated as hedges and, therefore, changes in the fair values of these derivatives are recognized in earnings, thereby offsetting the current earnings effect of the re-measurement of related intercompany loans and foreign currency assets and liabilities.

Activity related to the trading of derivative instruments and the offsetting impact of related intercompany loans and foreign currency assets and liabilities recognized in selling, general and administrative expense is as follows (in millions):

	<u>13 Weeks Ended</u>		<u>26 Weeks Ended</u>	
	<u>July 30, 2011</u>	<u>July 31, 2010</u>	<u>July 30, 2011</u>	<u>July 31, 2010</u>

<b>Total</b>	<b>\$ (0.7)</b>	<b>\$ (0.2)</b>	<b>\$ 1.8</b>	<b>\$ (1.4)</b>

We do not use derivative financial instruments for trading or speculative purposes. We are exposed to counterparty credit risk on all of our derivative financial instruments and cash equivalent investments. The Company manages counterparty risk according to the guidelines and controls established under comprehensive risk management and investment policies. We continuously monitor our counterparty credit risk and utilize a number of different counterparties to minimize our exposure to potential defaults. We do not require collateral under derivative or investment agreements.

The fair values of derivative instruments not receiving hedge accounting treatment in the condensed consolidated balance sheets presented herein were as follows (in millions):

	<u>July 30, 2011</u>	<u>July 31, 2010</u>	<u>January 29, 2011</u>
<b>Assets</b>

Other long-term liabilities	(1.5)	(0.4)	(1.6)
<b>Total derivatives</b>	<b>\$ 2.4</b>	<b>\$ 11.1</b>	<b>\$ 1.2</b>

As of July 30, 2011, the Company had a series of Foreign Currency Contracts outstanding, with a gross notional value of \$488.5 million and a net notional value of \$192.8 million. As of July 31, 2010, the Company had a series of Foreign Currency Contracts outstanding, with a gross notional value of \$423.8 million and a net notional value of \$261.5 million.

The Company's carrying value of financial instruments approximates their fair value, except for differences with respect to the senior notes. The fair value of the Company's senior notes payable in the accompanying consolidated balance sheets is estimated based on recent quotes from brokers. As of July 30, 2011, the senior

**GAMESTOP CORP.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)**

notes payable had a carrying value of \$249.3 million and a fair value of \$252.8 million. As of July 31, 2010, the senior notes payable had a carrying value of \$447.8 million and a fair value of \$462.9 million.

**5. Debt**

On January 4, 2011, the Company entered into a \$400 million credit agreement (the “Revolver”), which amended and restated, in its entirety, the Company’s prior credit agreement entered into on October 11, 2005 (the “Credit Agreement”). The Revolver provides for a five-year, \$400 million asset-based facility, including a \$50 million letter of credit sublimit, secured by substantially all of the Company’s and its domestic subsidiaries’ assets. The Company has the ability to increase the facility, which matures in January 2016, by \$150 million under certain circumstances. The extension of the Revolver to 2016 reduces our exposure to potential tightening in the credit markets.

The availability under the Revolver is limited to a borrowing base which allows the Company to borrow up to 90% of the appraisal value of the inventory, in each case plus 90% of eligible credit card receivables, net of certain reserves. Letters of credit reduce the amount available to borrow by their face value. The Company’s ability to pay cash dividends, redeem options and repurchase shares is generally permitted, except under certain circumstances, including if Revolver excess availability is less than 20%, or is projected to be within 12 months after such payment. In addition, if Revolver usage is projected to be equal to or greater than 25% of the borrowing base during the prospective 12-month period, the Company is subject to meeting a fixed charge coverage ratio of 1.1:1.0 prior to making such payments. In the event that excess availability under the Revolver is at any time less than the greater of (1) \$40.0 million or (2) 12.5% of the lesser of the total commitment or the borrowing base, the Company will be subject to a fixed charge coverage ratio covenant of 1.1:1.0.

The Revolver places certain restrictions on the Company and its subsidiaries, including limitations on asset sales, additional liens, investments, loans, guarantees, acquisitions and the incurrence of additional indebtedness. Absent consent from its lenders, the Company may not incur more than \$750 million of additional unsecured indebtedness to be limited to \$250 million in general unsecured obligations and \$500 million in unsecured obligations to finance acquisitions valued at \$500 million or more. The per annum interest rate under the Revolver is variable and is calculated by applying a margin (1) for prime rate loans of 1.25% to 1.50% above the highest of (a) the prime rate of the administrative agent, (b) the federal funds effective rate plus 0.50% or (c) the LIBO rate for a 30-day interest period as determined on such day plus 1.00%, and (2) for LIBO rate loans of 2.25% to 2.50% above the LIBO rate. The applicable margin is determined quarterly as a function of the Company’s average daily excess availability under the facility. In addition, the Company is required to pay a commitment fee of 0.375% or 0.50%, depending on facility usage, for any unused portion of the total commitment under the Revolver. As of July 30, 2011, the applicable margin was 1.25% for prime rate loans and 2.25% for LIBO rate loans, while the required commitment fee was 0.50% for the unused portion of the Revolver.

The Revolver provides for customary events of default with corresponding grace periods, including failure to pay any principal or interest when due, failure to comply with covenants, any material representation or warranty made by the Company or the borrowers proving to be false in any material respect, certain bankruptcy, insolvency or receivership events affecting the Company or its subsidiaries, defaults relating to certain other indebtedness, imposition of certain judgments and mergers or the liquidation of the Company or certain of its subsidiaries. As of July 30, 2011, there was \$10.0 million outstanding under the Revolver at an average per annum interest rate of 3.25% and letters of credit outstanding totaled \$8.5 million.

In September 2007, the Company’s Luxembourg subsidiary entered into a discretionary \$20.0 million Uncommitted Line of Credit (the “Line of Credit”) with Bank of America. There is no term associated with the Line of Credit and Bank of America may withdraw the facility at any time without notice. The Line of Credit will

be made available to the Company's foreign subsidiaries for use primarily as a bank overdraft facility for short-term liquidity needs and for the issuance of bank guarantees and letters of credit to support operations. As of July 30, 2011, there were no cash overdrafts outstanding under the Line of Credit and bank guarantees outstanding totaled \$5.9 million.

In September 2005, the Company, along with GameStop, Inc. as co-issuer (together with the Company, the "Issuers"), completed the offering of \$300 million aggregate principal amount of Senior Floating Rate Notes due 2011 (the "Senior Floating Rate Notes") and \$650 million aggregate principal amount of Senior Notes due 2012 (the "Senior Notes" and, together with the Senior Floating Rate Notes, the "Notes"). The Notes were issued under an Indenture, dated September 28, 2005 (the "Indenture"), by and among the Issuers, the subsidiary guarantors party thereto, and Citibank, N.A., as trustee (the "Trustee"). In November 2006, Wilmington Trust Company was appointed as the new Trustee for the Notes.

The Senior Notes bear interest at 8.0% per annum, mature on October 1, 2012 and were priced at 98.688%, resulting in a discount at the time of issue of \$8.5 million. The discount is being amortized using the effective interest method. As of July 30, 2011, the unamortized original issue discount was \$0.7 million. The Issuers pay interest on the Senior Notes semi-annually, in arrears, every April 1 and October 1, to holders of record on the immediately preceding March 15 and September 15, and at maturity.

The Indenture contains affirmative and negative covenants customary for such financings, including, among other things, limitations on (1) the incurrence of additional debt, (2) restricted payments, (3) liens, (4) sale and leaseback transactions and (5) asset sales. The debt limitation under the Indenture does not provide an effective restriction on the amount the Company may borrow under current or foreseeable circumstances. Events of default provided for in the Indenture include, among other things, failure to pay interest or principal on the Notes, other breaches of covenants in the Indenture, and certain events of bankruptcy and insolvency. As of July 30, 2011, the Company was in compliance with all covenants associated with the Revolver and the Indenture.

Under certain conditions, the Issuers may on any one or more occasions prior to maturity redeem up to 100% of the aggregate principal amount of Senior Notes issued under the Indenture at redemption prices at or in excess of 100% of the principal amount thereof plus accrued and unpaid interest, if any, to the redemption date. The circumstances which would limit the percentage of the Notes which may be redeemed or which would require the Company to pay a premium in excess of 100% of the principal amount are defined in the Indenture. Upon a Change of Control (as defined in the Indenture), the Issuers are required to offer to purchase all of the Notes then outstanding at 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase. The Issuers may acquire Senior Notes by means other than redemption, whether by tender offer, open market purchases, negotiated transactions or otherwise, in accordance with applicable securities laws, so long as such acquisitions do not otherwise violate the terms of the Indenture.

Between May 2006 and October 2010, the Company repurchased and redeemed the \$300 million of Senior Floating Rate Notes and \$400 million of Senior Notes under previously announced buybacks authorized by the Company's Board of Directors. The repurchased Notes were delivered to the Trustee for cancellation. None of the debt was retired or redeemed during the 26-week periods ended July 31, 2010 or July 30, 2011.

In February 2011, the Board of Directors authorized the Company to use \$500 million to repurchase shares of the Company's common stock and/or retire the Company's Senior Notes. Under the repurchase program, the Company may purchase the Company's Senior Notes and/or shares of issued and outstanding Class A Common Stock through open market purchases, debt calls or privately negotiated transactions. The timing and actual amount of debt or share repurchases will be determined by the Company's management based on their evaluation of market conditions and other factors. In addition, repurchases may be suspended or discontinued at any time. As of July 30, 2011, the Company has repurchased \$152.4 million of common stock, representing 7.3 million shares at an average purchase price of \$20.91, under the current repurchase program and none of the Senior

Notes, leaving \$347.6 million remaining under the existing authorization. As of August 29, 2011, the Company notified the Trustee of its intent to purchase \$125 million of the Company's Senior Notes on or about October 1, 2011.

As of July 30, 2011 and July 31, 2010, the only long-term debt outstanding was the Senior Notes. The \$250 million in Senior Notes outstanding as of July 30, 2011, gross of the unamortized original issue discount of \$0.7 million, matures in the fiscal year ending January 2013.

**6. Income Taxes**

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction and various states and foreign jurisdictions. The Company is no longer subject to U.S. federal income tax examination by the Internal Revenue Service for years before and including the fiscal year ended January 28, 2006.

We accrue for the effects of uncertain tax positions and the related potential penalties and interest. There were no net material adjustments to our recorded liability for unrecognized tax benefits during the 13 and 26 weeks ended July 30, 2011. It is reasonably possible that the amount of the unrecognized tax benefit with respect to certain of our unrecognized tax positions could significantly increase or decrease during the next 12 months. At this time, an estimate of the range of the reasonably possible outcomes cannot be made.

The tax provisions for the 13 weeks and 26 weeks ended July 30, 2011 and July 31, 2010 are based upon management's estimate of the Company's annualized effective tax rate.

**7. Certain Relationships and Related Transactions**

The Company has various relationships with Barnes & Noble, Inc. ("Barnes & Noble"), a related party through a common stockholder who is the Chairman of the Board of Directors of Barnes & Noble. The Company operates departments within eight bookstores operated by Barnes & Noble, whereby the Company pays a license fee to Barnes & Noble on the gross sales of such departments. Additionally, until April 30, 2011, [www.gamestop.com](http://www.gamestop.com) was the exclusive specialty video game retailer listed on [www.bn.com](http://www.bn.com), Barnes & Noble's e-commerce site, whereby the Company paid a fee to Barnes & Noble for sales of video game or PC entertainment products sold through [www.bn.com](http://www.bn.com). The Company also continues to incur costs related to its participation in Barnes & Noble's workers' compensation, property and general liability insurance programs prior to June 2005. During the 13 weeks ended July 30, 2011 and July 31, 2010, these charges amounted to \$0.2 million and \$0.3 million, respectively. During the 26 weeks ended July 30, 2011 and July 31, 2010, these charges amounted to \$0.5 million and \$0.6 million, respectively.

**8. Commitments and Contingencies**

In the ordinary course of the Company's business, the Company is, from time to time, subject to various legal proceedings, including matters involving wage and hour employee class actions. The Company may enter into discussions regarding settlement of these and other types of lawsuits, and may enter into settlement agreements, if it believes settlement is in the best interest of the Company's stockholders. Management does not believe that any such existing legal proceedings or settlements, individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or liquidity.

## ITEM 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

*The following discussion should be read in conjunction with the information contained in our consolidated financial statements, including the notes thereto. Statements regarding future economic performance, management's plans and objectives, and any statements concerning assumptions related to the foregoing contained in Management's Discussion and Analysis of Financial Condition and Results of Operations constitute forward-looking statements. Certain factors, which may cause actual results to vary materially from these forward-looking statements, accompany such statements or appear in GameStop's Annual Report on Form 10-K for the fiscal year ended January 29, 2011 filed with the Securities and Exchange Commission (the "SEC") on March 30, 2011 (the "Form 10-K"), including the factors disclosed under "Item 1A. Risk Factors."*

### General

GameStop Corp. (together with its predecessor companies, "GameStop," "we," "us," "our," or the "Company") is the world's largest multichannel video game retailer. We sell new and used video game hardware, physical and digital video game software, accessories, as well as PC entertainment software and other merchandise. As of July 30, 2011, GameStop's retail network and family of brands include 6,582 Company-operated stores in the United States, Australia, Canada and Europe, primarily under the names GameStop, EB Games and Micromania. We also operate electronic commerce Web sites [www.gamestop.com](http://www.gamestop.com), [www.ebgames.com.au](http://www.ebgames.com.au), [www.gamestop.ca](http://www.gamestop.ca), [www.gamestop.it](http://www.gamestop.it), [www.gamestop.es](http://www.gamestop.es), [www.gamestop.ie](http://www.gamestop.ie), [www.gamestop.de](http://www.gamestop.de), [www.gamestop.co.uk](http://www.gamestop.co.uk) and [www.micromania.fr](http://www.micromania.fr). The network also includes: [www.Kongregate.com](http://www.Kongregate.com), a leading browser-based game site; *Game Informer* magazine, the leading multi-platform video game publication; Spawn Labs, a streaming technology company; and Impulse, Inc., a digital distribution platform available at [www.GameStop.com/impulse](http://www.GameStop.com/impulse).

Our fiscal year is composed of 52 or 53 weeks ending on the Saturday closest to January 31. The fiscal years ending January 28, 2012 ("fiscal 2011") and ended January 29, 2011 ("fiscal 2010") consist of 52 weeks.

Growth in the video game industry is driven by the introduction of new technology. The current generation of hardware consoles (the Sony PlayStation 3, the Microsoft Xbox 360 and the Nintendo Wii) were introduced between 2005 and 2007. The Sony PlayStation Portable was introduced in 2005. The Nintendo DSi XL was introduced in early 2010 and the Nintendo 3DS was introduced in March 2011. Typically, following the introduction of new video game platforms, sales of new video game hardware increase as a percentage of total sales in the first full year following introduction. As video game platforms mature, the sales mix attributable to complementary video game software and accessories, which generate higher gross margins, generally increases in the subsequent years. The net effect is generally a decline in gross margins in the first full year following new platform releases and an increase in gross margins in the years subsequent to the first full year following the launch period. Unit sales of maturing video game platforms are typically also driven by manufacturer-funded retail price reductions, further driving sales of related software and accessories. We expect that the installed base of the hardware platforms listed above and sales of related software and accessories will increase in the future.

We expect that future growth in the video game industry will also be driven by the sale of video games delivered in digital form and the expansion of other forms of gaming. We currently sell various types of products that relate to the digital category, including Xbox Live, PlayStation and Nintendo network point cards, as well as prepaid digital and online timecards and digitally downloaded software. We continue to make significant investments in e-commerce, online game development, digital kiosks and in-store and Web site functionality to enable our customers to access digital content and eliminate friction in the digital sales and delivery process. We plan to continue to invest in these types of processes and channels to grow our digital sales base and enhance our market leadership position in the video game industry and in the digital aggregation and distribution category. We also intend to continue to invest in customer loyalty programs designed to attract and retain customers.

### Critical Accounting Policies

Our consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and do not include all disclosures required under GAAP for complete financial statements. Preparation of these statements requires management to make judgments and estimates. Some accounting policies have a significant impact on amounts reported in these financial statements. For a summary of significant accounting policies and the means by which we develop estimates thereon, see “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Form 10-K.

The Company includes purchasing, receiving and distribution costs in selling, general and administrative expenses, rather than cost of sales, in the statement of operations. The Company includes processing fees associated with purchases made by check and credit cards in cost of sales, rather than selling, general and administrative expenses, in the statement of operations. As a result of these classifications, our gross margins are not comparable to those retailers that include purchasing, receiving and distribution costs in cost of sales and include processing fees associated with purchases made by check and credit cards in selling, general and administrative expenses. The net effect of these classifications as a percentage of sales has not historically been material.

**13 weeks ended July 30, 2011 compared with the 13 weeks ended July 31, 2010**

Sales decreased by \$55.4 million, or 3.1%, from \$1,799.1 million in the 13 weeks ended July 31, 2010 to \$1,743.7 million in the 13 weeks ended July 30, 2011. The decrease in sales was primarily attributable to a decrease in comparable store sales of 9.1% for the second quarter of fiscal 2011, offset by changes related to foreign exchange rates, which had the effect of increasing sales by \$79.6 million when compared to the second quarter of fiscal 2010. Stores are included in our comparable store sales base beginning in the thirteenth month of operation and exclude the effect of changes in foreign exchange rates. The decrease in comparable store sales was primarily attributable to a decrease in new video game software sales due to a lack of new release video game titles in the second quarter of fiscal 2011 when compared to the second quarter of fiscal 2010, and a decrease in new video game hardware sales.

New video game hardware sales decreased \$38.7 million, or 12.3%, from \$314.3 million in the 13 weeks ended July 31, 2010 to \$275.6 million in the 13 weeks ended July 30, 2011, primarily due to weak consumer demand, product shortages and the year-on-year comparison to the introduction of the Microsoft Xbox 360 Slim which increased hardware sales in the second quarter of fiscal 2010. New video game software sales decreased \$63.4 million, or 9.6%, from \$663.2 million in the 13 weeks ended July 31, 2010 to \$599.8 million in the

13 weeks ended July 30, 2011, primarily due to a lack of new release video game titles in the second quarter of fiscal 2011. Used video game product sales grew by \$67.6 million, or 12.0%, from \$565.5 million in the 13 weeks ended July 31, 2010 to \$633.1 million in the 13 weeks ended July 30, 2011. Used video game product sales grew due to an increase in the hardware install base, marketing efforts and changes in merchandising, the shift in sales from new video game software due to the lack of new release video game titles during the second quarter of fiscal 2011 and the growth of used video game product sales internationally. Sales of other product categories decreased 8.2%, or \$20.9 million, from the 13 weeks ended July 31, 2010 to the 13 weeks ended July 30, 2011. The decrease in other product sales was primarily due to the decrease in sales of new release PC entertainment software titles when compared to the prior year quarter.

As a percentage of sales, new video game hardware, new video game software and other video game products decreased and used video game products increased in the 13 weeks ended July 30, 2011 compared to the 13 weeks ended July 31, 2010. The change in the mix of sales was primarily due to the increase in used video game product sales as discussed above and the decrease in sales of new video game software and other product sales due to a lack of new release video game and PC entertainment software titles in the second quarter of fiscal 2011.

Cost of sales decreased by \$81.8 million, or 6.4%, from \$1,282.3 million in the 13 weeks ended July 31, 2010 to \$1,200.5 million in the 13 weeks ended July 30, 2011 as a result of a decrease in sales and the changes in gross profit discussed below.

Gross profit increased by \$26.4 million, or 5.1%, from \$516.8 million in the 13 weeks ended July 31, 2010 to \$543.2 million in the 13 weeks ended July 30, 2011. Gross profit as a percentage of sales increased from 28.7% in the 13 weeks ended July 31, 2010 to 31.2% in the 13 weeks ended July 30, 2011. The gross profit percentage increase was primarily due to the increase in sales of used video game products as a percentage of total sales and the increase in gross profit as a percentage of sales on other video game products, including the increase in sales of digital product sales, in the 13 weeks ended July 30, 2011 when compared to the 13 weeks ended July 31, 2010. Gross profit as a percentage of sales on new video game hardware decreased from 8.2% in the 13 weeks ended July 31, 2010 to 7.5% in the 13 weeks ended July 30, 2011, primarily due to promotional activities and a decrease in product replacement plan sales on new hardware units when compared to the prior year. Gross profit as a percentage of sales on new video game software increased from 21.4% in the 13 weeks ended July 31, 2010 to 22.0% in the 13 weeks ended July 30, 2011, primarily due to the increase in the mix of international new video game software sales to total new video game sales during the second quarter of fiscal 2011 when compared to the second quarter of the prior year. International new video game software sales have a higher gross margin than U.S. new video game software sales. Gross profit as a percentage of sales on used video game products increased slightly from 46.0% in the 13 weeks ended July 31, 2010 to 46.2% in the 13 weeks ended July 30, 2011. Gross profit as a percentage of sales on other product sales increased from 34.8% in the 13 weeks ended July 31, 2010 to 41.7% in the 13 weeks ended July 30, 2011, primarily due to a shift in sales to higher margin digital product sales, some of which are recorded on a commission basis at 100% margin, and growth in sales of PowerUp Rewards Pro memberships and related Game Informer subscriptions that also have higher margins than software and accessories.

Selling, general and administrative expenses increased by \$37.5 million, or 9.3%, from \$405.0 million in the 13 weeks ended July 31, 2010 to \$442.5 million in the 13 weeks ended July 30, 2011. This increase was primarily attributable to changes in foreign exchange rates which had the effect of increasing expenses by \$19.3 million when compared to the second quarter of fiscal 2010, as well as additional expenses incurred in support of our digital and loyalty initiatives. Selling, general and administrative expenses as a percentage of sales increased from 22.5% in the 13 weeks ended July 31, 2010 to 25.4% in the 13 weeks ended July 30, 2011. The increase in selling, general and administrative expenses as a percentage of sales was primarily due to deleveraging of fixed costs as a result of the decrease in comparable store sales and the additional expenses incurred in support of our digital and loyalty initiatives in the second quarter of fiscal 2011. Included in selling, general and administrative expenses are \$4.9 million and \$7.5 million in stock-based compensation expense for the 13 weeks ended July 30, 2011 and July 31, 2010, respectively.

Depreciation and amortization expense increased \$4.9 million from \$42.2 million in the 13 weeks ended July 31, 2010 to \$47.1 million in the 13 weeks ended July 30, 2011. This increase was primarily due to

investments in management information systems and the capital expenditures associated with the opening of 55 new stores during the second quarter of fiscal 2011.

Interest income increased \$0.1 million from \$0.3 million in the 13 weeks ended July 31, 2010 to \$0.4 million in the 13 weeks ended July 30, 2011. Interest expense decreased \$3.6 million from \$10.3 million in the 13 weeks ended July 31, 2010 to \$6.7 million in the 13 weeks ended July 30, 2011 primarily due to the retirement of \$200.0 million of the Company's senior notes since January 30, 2010.

Income tax expense for the 13 weeks ended July 30, 2011 and the 13 weeks ended July 31, 2010 was based upon management's estimate of the Company's annualized effective tax rate. Income tax expense was \$16.7 million, or 35.3% of earnings before income tax expense for the 13 weeks ended July 30, 2011 compared to \$19.8 million, or 33.2% of earnings before income tax expense for the 13 weeks ended July 31, 2010. The increase in the income tax rate was due primarily to the variability in the accounting for the Company's uncertain tax positions.

The factors described above led to a decrease in operating earnings of \$16.0 million from \$69.6 million in the 13 weeks ended July 31, 2010 to \$53.6 million in the 13 weeks ended July 30, 2011, and a decrease in consolidated net income of \$9.2 million from \$39.8 million in the 13 weeks ended July 31, 2010 to \$30.6 million in the 13 weeks ended July 30, 2011.

The \$0.3 million and \$0.5 million net loss attributable to noncontrolling interests for the 13 weeks ended July 30, 2011 and July 31, 2010, respectively, represents the portion of the minority interest stockholders' net loss of the Company's non-wholly owned subsidiaries included in the Company's consolidated net income.

***26 weeks ended July 30, 2011 compared with the 26 weeks ended July 31, 2010***

Sales increased by \$143.3 million, or 3.7%, from \$3,881.8 million in the 26 weeks ended July 31, 2010 to \$4,025.1 million in the 26 weeks ended July 30, 2011. The increase in sales was primarily attributable to changes related to foreign exchange rates, which had the effect of increasing sales by \$112.5 million, and the addition of non-comparable store sales from the 132 stores opened since January 30, 2010, offset partially by a decrease in comparable store sales of 1.4% for the 26 weeks ended July 30, 2011 when compared to the 26 weeks ended July 31, 2010. The decrease in comparable store sales was primarily attributable to a decrease in new video game software sales due to a lack of new release video game titles in the second quarter of fiscal 2011.

New video game hardware sales increased \$45.4 million, or 6.9%, from \$662.6 million in the 26 weeks ended July 31, 2010 to \$708.0 million in the 26 weeks ended July 30, 2011, primarily due to the launch of Nintendo 3DS in the first quarter of fiscal 2011. New video game software sales decreased \$21.7 million, or 1.4%, from \$1,536.2 million in the 26 weeks ended July 31, 2010 to \$1,514.5 million in the 26 weeks ended July 30, 2011, primarily due to a lack of new release video game titles in the second quarter of fiscal 2011 when compared to the same period in fiscal 2010. Used video game product sales increased \$121.8 million, or 10.7%, from \$1,136.3 million in the 26 weeks ended July 31, 2010 to \$1,258.1 million in the 26 weeks ended July 30, 2011. Used video game product sales increased due to an increase in the hardware install base, marketing efforts and changes in merchandising, the shift in sales from new video game software due to the lack of new release video game titles during fiscal 2011 and the growth of used product sales internationally. Sales of other product categories decreased by \$2.2 million, or 0.4%, from \$546.7 million in the 26 weeks ended July 31, 2010 to \$544.5 million in the 26 weeks ended July 30, 2011. The decrease in other product sales was primarily due to the decrease in sales of new release PC entertainment software when compared to the prior year period, offset by the effect of changes in foreign exchange rates.

As a percentage of sales, new video game hardware sales and used video game product sales increased and new video game software sales and other product sales decreased in the 26 weeks ended July 30, 2011 compared to the 26 weeks ended July 31, 2010. The change in the mix of sales was primarily due to the increase in used video game product sales as discussed above and the increase in new video game hardware sales due to the launch of Nintendo 3DS in the first quarter of fiscal 2011.

Cost of sales increased by \$67.5 million, or 2.4%, from \$2,794.2 million in the 26 weeks ended July 31, 2010 to \$2,861.7 million in the 26 weeks ended July 30, 2011, primarily as a result of the increase in sales and the changes in gross profit discussed below.

Gross profit increased by \$75.8 million, or 7.0%, from \$1,087.6 million in the 26 weeks ended July 31, 2010 to \$1,163.4 million in the 26 weeks ended July 30, 2011. Gross profit as a percentage of sales increased from 28.0% in the 26 weeks ended July 31, 2010 to 28.9% in the 26 weeks ended July 30, 2011. The gross profit percentage increase was primarily due to the increase in sales of used video game products as a percentage of total sales and the increase in gross profit as a percentage of sales on other video game products in fiscal 2011. Gross profit as a percentage of sales on new video game hardware increased slightly from 7.1% in the 26 weeks ended July 31, 2010 to 7.2% in the 26 weeks ended July 30, 2011. Gross profit as a percentage of sales on new video game software decreased slightly from 20.6% in the 26 weeks ended July 31, 2010 to 20.3% in the 26 weeks ended July 30, 2011. Gross profit as a percentage of sales on used video game products increased slightly from 47.0% in the 26 weeks ended July 31, 2010 to 47.1% in the 26 weeks ended July 30, 2011. Gross profit as a percentage of sales on the other product sales category increased from 34.7% in the 26 weeks ended July 31, 2010 to 39.2% in the 26 weeks ended July 30, 2011 primarily due to a shift in sales to higher margin digital product sales, some of which are recorded on a commission basis at 100% margin, and growth in sales of PowerUp Rewards Pro memberships and related Game Informer subscriptions that also have higher margins than software or accessories.

Selling, general and administrative expenses increased by \$76.4 million, or 9.4%, from \$808.8 million in the 26 weeks ended July 31, 2010 to \$885.2 million in the 26 weeks ended July 30, 2011. This increase was primarily attributable to the increase in the number of stores in operation during fiscal 2011 and the related increases in store, distribution and corporate office operating expenses, changes in foreign exchange rates which had the effect of increasing expenses by \$26.6 million, as well as expenses incurred in support of our digital and loyalty initiatives. Selling, general and administrative expenses as a percentage of sales increased from 20.8% in the 26 weeks ended July 31, 2010 to 22.0% in the 26 weeks ended July 30, 2011. The increase in selling, general and administrative expenses as a percentage of sales was primarily due to deleveraging of fixed costs as a result of the decrease in comparable store sales and the additional expenses incurred in support of our digital and loyalty initiatives in fiscal 2011. Selling, general and administrative expenses include \$9.8 million and \$14.7 million in stock-based compensation expense for the 26 weeks ended July 30, 2011 and July 31, 2010, respectively.

Depreciation and amortization expense increased \$8.7 million from \$84.7 million for the 26 weeks ended July 31, 2010 to \$93.4 million in the 26 weeks ended July 30, 2011. This increase was primarily due to investments in management information systems and the capital expenditures associated with the opening of 117 new stores during the 26 weeks ended July 30, 2011.

Interest income decreased from \$1.1 million in the 26 weeks ended July 31, 2010 to \$0.5 million in the 26 weeks ended July 30, 2011, due primarily to lower invested cash balances. Interest expense decreased from \$20.7 million in the 26 weeks ended July 31, 2010 to \$13.0 million in the 26 weeks ended July 30, 2011, primarily due to the retirement of \$200.0 million of the Company's senior notes since January 30, 2010.

Income tax expense for the 26 weeks ended July 30, 2011 and the 26 weeks ended July 31, 2010 was based upon management's estimate of the Company's annualized effective tax rate. Income tax expense was \$61.8 million, or 35.9% of earnings before income tax expense, for the 26 weeks ended July 30, 2011 compared to \$59.8 million, or 34.3% of earnings before income tax expense, for the 26 weeks ended July 31, 2010. The increase in the income tax rate was due primarily to the variability in the accounting for the Company's uncertain tax positions.

The factors described above led to a decrease in operating earnings of \$9.3 million from \$194.1 million in the 26 weeks ended July 31, 2010 to \$184.8 million in the 26 weeks ended July 30, 2011, and a decrease in consolidated net income of \$4.2 million from \$114.7 million in the 26 weeks ended July 31, 2010 to \$110.5 million in the 26 weeks ended July 30, 2011.

The \$0.8 million net loss attributable to noncontrolling interests for each of the 26 weeks ended July 30, 2011 and July 31, 2010 represents the portion of the minority interest stockholders' net loss of the Company's non-wholly owned subsidiaries included in the Company's consolidated net income.

### Segment Performance

The Company operates its business in the following segments: United States, Australia, Canada and Europe. The following tables provide a summary of our sales and operating earnings (loss) by reportable segment:

#### United States

Segment results for the United States include retail operations in all 50 states, the District of Columbia, Guam and Puerto Rico, the electronic commerce Web site [www.gamestop.com](http://www.gamestop.com), *Game Informer* magazine, [www.Kongregate.com](http://www.Kongregate.com), Spawn Labs, and Impulse, Inc. As of July 30, 2011, the United States segment included 4,440 GameStop stores, compared to 4,477 on July 31, 2010. Sales for the 13 weeks ended July 30, 2011 decreased 9.6% compared to the 13 weeks ended July 31, 2010 as a result of the decrease in comparable store sales. The decrease in comparable store sales in the second quarter of fiscal 2011 was primarily attributable to a decrease in new video game software sales due to a lack of new release video game titles and a decrease in new video game hardware sales due to a slow-down in sales of new hardware systems when compared to the second quarter of fiscal 2010. Sales for the 26 weeks ended July 30, 2011 increased 1.6% compared to the 26 weeks ended July 31, 2010 primarily as a result of the opening of 302 new stores since January 31, 2010, including 75 stores in the 26 weeks ended July 30, 2011. Sales at existing stores for the 26 weeks ended July 30, 2011 were flat compared to sales for the 26 weeks ended July 31, 2010. Segment operating income for the 13 and 26 weeks ended July 30, 2011 decreased by 19.1% and 0.6%, respectively, compared to the 13 and 26 weeks ended July 31, 2010, due primarily to the impact from the changes in comparable store sales and the additional expenses incurred in support of our digital and loyalty initiatives in fiscal 2011.

#### Canada

Sales in the Canadian segment in the 13 and 26 weeks ended July 30, 2011 decreased 6.2% and 1.0%, respectively, compared to the 13 and 26 weeks ended July 31, 2010. The decrease in sales was primarily due to a

decrease in sales at existing stores partially offset by the impact of changes in exchange rates, which had the effect of increasing sales by \$6.2 million and \$11.7 million, respectively, in the 13 and 26 weeks ended July 30, 2011 when compared to the same periods in fiscal 2010. As of July 30, 2011, the Canadian segment had 344 stores compared to 343 stores at July 31, 2010. Sales decreased at existing stores primarily due to a weaker line up of new software releases for the 13 and 26 weeks ended July 30, 2011 when compared to the same periods in fiscal 2010. Segment operating income for the 13 and 26 weeks ended July 30, 2011 decreased by \$1.8 million and \$5.3 million, respectively, compared to the 13 and 26 weeks ended July 31, 2010, driven by the decrease in sales at existing stores discussed above and the impact of changes in exchange rates, which had the effect of decreasing operating earnings by \$0.2 million and \$0.2 million, respectively, for the 13 and 26 weeks ended July 30, 2011 when compared to the prior year periods.

### *Australia*

Segment results for Australia include retail operations in Australia and New Zealand and e-commerce operations in Australia. As of July 30, 2011, the Australian segment included 411 stores, compared to 398 stores at July 31, 2010. Sales for the 13 and 26 weeks ended July 30, 2011 increased 15.8% and 13.5%, respectively, compared to the 13 and 26 weeks ended July 31, 2010. The increase in sales was primarily due to the impact of changes in exchange rates in the second quarter of fiscal 2011, which had the effect of increasing sales by \$25.9 million and \$39.1 million when compared to the same periods in fiscal 2010. Sales also increased due to the addition of 28 new stores since January 30, 2010. Excluding the impact of changes in exchange rates, sales in the Australian segment decreased 6.0% and 3.8% in the 13 and 26 weeks ended July 30, 2011, respectively. This decrease in sales was primarily due to a decrease in sales at existing stores due to fewer new software title releases when compared to the same periods in fiscal 2010. Segment operating income in the 13 and 26 weeks ended July 30, 2011 decreased by \$1.4 million and \$0.3 million, respectively, when compared to the 13 and 26 weeks ended July 31, 2010. The decrease in segment operating income was due to the decrease in sales at existing stores and the increase in selling, general and administrative expenses associated with the increase in the number of stores in operation. Selling, general and administrative expenses rise as a percentage of sales during periods of store count growth due to the fixed nature of many store expenses compared to the ramp in sales at new stores. This decrease in operating earnings was partially offset by the impact of changes in exchange rates, which had the effect of increasing operating earnings by \$0.7 million and \$1.1 million, respectively, for the 13 and 26 weeks ended July 30, 2011 when compared to the 13 and 26 weeks ended July 31, 2010.

### *Europe*

Segment results for Europe include retail operations in 13 European countries and e-commerce operations in six countries. As of July 30, 2011, the European segment operated 1,387 stores compared to 1,331 stores as of July 31, 2010. For the 13 and 26 weeks ended July 30, 2011, European sales increased 18.0% and 10.7%, respectively, compared to the 13 and 26 weeks ended July 31, 2010. The increase in sales was primarily due to the impact of the changes in exchange rates, which had the effect of increasing sales by \$47.5 million and \$61.7 million, respectively, in the 13 and 26 weeks ended July 30, 2011 when compared to the prior year periods. Excluding the impact of changes in exchange rates, sales in the European segment increased 2.5% and 1.1%, respectively, in the 13 and 26 weeks ended July 30, 2011 when compared to the prior year periods. This increase in sales was primarily due to the increase in sales at the 134 stores opened since January 30, 2010 and the growth of used video game product sales as this category continues to mature internationally. These increases were partially offset by the decrease in sales at existing stores due to fewer new software title releases in the relevant periods of fiscal 2011 when compared to the relevant periods in fiscal 2010.

The segment operating loss in Europe was \$6.2 million in the 13 weeks ended July 30, 2011 compared to the operating loss in the 13 weeks ended July 31, 2010 of \$7.1 million. The decrease in the operating loss for the 13 weeks ended July 30, 2011 compared to the 13 weeks ended July 31, 2010 was primarily due to the increase in gross margin due to the higher mix of used video game product sales as a percentage of total sales during fiscal 2011 which carry higher gross margins than other category sales. This increase was partially offset by the increase in selling, general and administrative expenses associated with the increase in the number of stores in

operation. The decrease in the operating loss was partially offset by the impact of changes in exchange rates, which had the effect of increasing the operating loss by \$0.6 million when compared to the prior year period. The segment operating loss in Europe for the 26 weeks ended July 30, 2011 was \$10.2 million compared to the operating loss in the 26 weeks ended July 31, 2010 of \$7.6 million. The increase in the operating loss for the 26 weeks ended July 30, 2011 compared to the 26 weeks ended July 31, 2010 was primarily due to the decrease in sales at existing stores and the increase in selling, general and administrative expenses associated with the increase in the number of stores in operation. The increase in the operating loss was also impacted by changes in exchange rates, which had the effect of increasing the operating loss by \$1.2 million when compared to the prior year period.

### **Seasonality**

The Company's business, like that of many retailers, is seasonal, with the major portion of the sales and operating profit realized during the fourth fiscal quarter which includes the holiday selling season.

### **Liquidity and Capital Resources**

#### ***Cash Flows***

During the 26 weeks ended July 30, 2011, cash used in operations was \$225.7 million, compared to cash used in operations of \$291.2 million during the 26 weeks ended July 31, 2010. The decrease in cash used in operations of \$65.5 million was primarily due to a decrease in cash used for working capital purposes of \$61.9 million, primarily driven by lower inventory purchases in the 26 weeks ended July 30, 2011 and the related effects on accounts payable payments. The lower inventory purchases were due to better in-stock positions coming out of the fiscal 2010 holiday selling season, particularly hardware inventory which was in short supply at the end of the 52 weeks ended January 30, 2010 ("fiscal 2009"), inventory management, and a lack of new video game title releases in the second quarter of fiscal 2011.

Cash used in investing activities was \$121.0 million and \$89.5 million during the 26 weeks ended July 30, 2011 and July 31, 2010, respectively. During the 26 weeks ended July 30, 2011, \$87.9 million of cash was used primarily to invest in information systems and e-commerce, digital and loyalty program initiatives and to open new stores in the U.S. and internationally. In addition, during the 26 weeks ended July 30, 2011, the Company used \$27.4 million for acquisitions in support of the Company's digital initiatives. During the 26 weeks ended July 31, 2010, \$80.3 million of cash was used primarily to open new stores in the U.S. and internationally and to invest in information systems, e-commerce and digital and loyalty program initiatives.

Cash used in financing activities was \$151.6 million and \$243.1 million for the 26 weeks ended July 30, 2011 and July 31, 2010, respectively. The cash used in financing activities for the 26 weeks ended July 30, 2011 was primarily due to the purchase of \$174.4 million of treasury shares pursuant to the Board of Directors' \$500 million authorization in February 2011. Of this amount, \$22.0 million of cash was used to settle treasury share purchases that were initiated prior to January 29, 2011. In addition, \$13.2 million of cash was received due to the issuance of shares relating to stock option exercises and the Company borrowed \$35.0 million against its Revolver (as defined below) during the 26 weeks ended July 30, 2011 and subsequently repaid \$25.0 million of the borrowings before July 30, 2011. The cash used in financing activities for the 26 weeks ended July 31, 2010 was primarily due to the purchase of \$241.6 million of treasury shares pursuant to the Board of Directors' \$300 million authorization in January 2010.

#### ***Sources of Liquidity***

We utilize cash generated from operations and have funds available to us under our revolving credit facility to cover seasonal fluctuations in cash flows and to support our various growth initiatives. Our cash and cash equivalents are carried at cost, which approximates market value, and consist primarily of time deposits with highly rated commercial banks and money market investment funds holding direct U.S. Treasury obligations.

## [Table of Contents](#)

On January 4, 2011, the Company entered into a \$400 million credit agreement (the “Revolver”), which amended and restated, in its entirety, the Company’s prior credit agreement entered into on October 11, 2005 (the “Credit Agreement”). The Revolver provides for a five-year, \$400 million asset-based facility, including a \$50 million letter of credit sublimit, secured by substantially all of the Company’s and its domestic subsidiaries’ assets. The Company has the ability to increase the facility, which matures in January 2016, by \$150 million under certain circumstances. The extension of the Revolver to 2016 reduces our exposure to potential tightening in the credit markets.

The availability under the Revolver is limited to a borrowing base which allows the Company to borrow up to 90% of the appraisal value of the inventory, in each case plus 90% of eligible credit card receivables, net of certain reserves. Letters of credit reduce the amount available to borrow by their face value. The Company’s ability to pay cash dividends, redeem options and repurchase shares is generally permitted, except under certain circumstances, including if Revolver excess availability is less than 20%, or is projected to be within 12 months after such payment. In addition, if Revolver usage is projected to be equal to or greater than 25% of the borrowing base during the prospective 12-month period, the Company is subject to meeting a fixed charge coverage ratio of 1.1:1.0 prior to making such payments. In the event that excess availability under the Revolver is at any time less than the greater of (1) \$40.0 million or (2) 12.5% of the lesser of the total commitment or the borrowing base, the Company will be subject to a fixed charge coverage ratio covenant of 1.1:1.0.

The Revolver places certain restrictions on the Company and its subsidiaries, including limitations on asset sales, additional liens, investments, loans, guarantees, acquisitions and the incurrence of additional indebtedness. Absent consent from its lenders, the Company may not incur more than \$750 million of additional unsecured indebtedness to be limited to \$250 million in general unsecured obligations and \$500 million in unsecured obligations to finance acquisitions valued at \$500 million or more. The per annum interest rate under the Revolver is variable and is calculated by applying a margin (1) for prime rate loans of 1.25% to 1.50% above the highest of (a) the prime rate of the administrative agent, (b) the federal funds effective rate plus 0.50% or (c) the LIBO rate for a 30-day interest period as determined on such day plus 1.00%, and (2) for LIBO rate loans of 2.25% to 2.50% above the LIBO rate. The applicable margin is determined quarterly as a function of the Company’s average daily excess availability under the facility. In addition, the Company is required to pay a commitment fee of 0.375% or 0.50%, depending on facility usage, for any unused portion of the total commitment under the Revolver. As of July 30, 2011, the applicable margin was 1.25% for prime rate loans and 2.25% for LIBO rate loans, while the required commitment fee was 0.50% for the unused portion of the Revolver.

The Revolver provides for customary events of default with corresponding grace periods, including failure to pay any principal or interest when due, failure to comply with covenants, any material representation or warranty made by the Company or the borrowers proving to be false in any material respect, certain bankruptcy, insolvency or receivership events affecting the Company or its subsidiaries, defaults relating to certain other indebtedness, imposition of certain judgments and mergers or the liquidation of the Company or certain of its subsidiaries. As of July 30, 2011, there was \$10.0 million outstanding under the Revolver at an average per annum interest rate of 3.25% and letters of credit outstanding totaled \$8.5 million.

In September 2007, the Company’s Luxembourg subsidiary entered into a discretionary \$20.0 million Uncommitted Line of Credit (the “Line of Credit”) with Bank of America. There is no term associated with the Line of Credit and Bank of America may withdraw the facility at any time without notice. The Line of Credit will be made available to the Company’s foreign subsidiaries for use primarily as a bank overdraft facility for short-term liquidity needs and for the issuance of bank guarantees and letters of credit to support operations. As of July 30, 2011, there were no cash overdrafts outstanding under the Line of Credit and bank guarantees outstanding totaled \$5.9 million.

In September 2005, the Company, along with GameStop, Inc. as co-issuer (together with the Company, the “Issuers”), completed the offering of \$300 million aggregate principal amount of Senior Floating Rate Notes due 2011 (the “Senior Floating Rate Notes”) and \$650 million aggregate principal amount of Senior Notes due 2012 (the “Senior Notes” and, together with the Senior Floating Rate Notes, the “Notes”). The Notes were issued

---

[Table of Contents](#)

under an Indenture, dated September 28, 2005 (the “Indenture”), by and among the Issuers, the subsidiary guarantors party thereto, and Citibank, N.A., as trustee (the “Trustee”). In November 2006, Wilmington Trust Company was appointed as the new Trustee for the Notes.

The Senior Notes bear interest at 8.0% per annum, mature on October 1, 2012 and were priced at 98.688%, resulting in a discount at the time of issue of \$8.5 million. The discount is being amortized using the effective interest method. As of July 30, 2011, the unamortized original issue discount was \$0.7 million. The Issuers pay interest on the Senior Notes semi-annually, in arrears, every April 1 and October 1, to holders of record on the immediately preceding March 15 and September 15, and at maturity.

The Indenture contains affirmative and negative covenants customary for such financings, including, among other things, limitations on (1) the incurrence of additional debt, (2) restricted payments, (3) liens, (4) sale and leaseback transactions and (5) asset sales. The debt limitation under the Indenture does not provide an effective restriction on the amount the Company may borrow under current or foreseeable circumstances. Events of default provided for in the Indenture include, among other things, failure to pay interest or principal on the Notes, other breaches of covenants in the Indenture, and certain events of bankruptcy and insolvency. As of July 30, 2011, the Company was in compliance with all covenants associated with the Revolver and the Indenture.

Under certain conditions, the Issuers may on any one or more occasions prior to maturity redeem up to 100% of the aggregate principal amount of Senior Notes issued under the Indenture at redemption prices at or in excess of 100% of the principal amount thereof plus accrued and unpaid interest, if any, to the redemption date. The circumstances which would limit the percentage of the Notes which may be redeemed or which would require the Company to pay a premium in excess of 100% of the principal amount are defined in the Indenture. Upon a Change of Control (as defined in the Indenture), the Issuers are required to offer to purchase all of the Notes then outstanding at 101% of the principal amount thereof plus accrued and unpaid interest, if any, to the date of purchase. The Issuers may acquire Senior Notes by means other than redemption, whether by tender offer, open market purchases, negotiated transactions or otherwise, in accordance with applicable securities laws, so long as such acquisitions do not otherwise violate the terms of the Indenture.

As of July 30, 2011 and July 31, 2010, the only long-term debt outstanding was the Senior Notes. The \$250 million in Senior Notes outstanding as of July 30, 2011, gross of the unamortized original issue discount of \$0.7 million, matures in the fiscal year ending January 2013.

### *Uses of Capital*

Our future capital requirements will depend on the number of new stores opened and the timing of those openings within a given fiscal year, as well as the investments we will make in e-commerce, digital and other strategic initiatives. The Company opened 117 stores in the 26 weeks ended July 30, 2011 and expects to open approximately 300 stores in fiscal 2011. Capital expenditures for fiscal 2011 are projected to be approximately \$170 million, to be used primarily to fund new store openings, store remodels and invest in distribution and information systems in support of operations.

Between May 2006 and October 2010, the Company repurchased and redeemed the \$300 million of Senior Floating Rate Notes and \$400 million of Senior Notes under previously announced buybacks authorized by the Company’s Board of Directors. The repurchased Notes were delivered to the Trustee for cancellation. None of the debt was retired or redeemed during the 26-week periods ended July 31, 2010 or July 30, 2011.

On January 11, 2010, the Board of Directors of the Company approved a \$300 million share repurchase program authorizing the Company to repurchase its common stock. For fiscal 2009, the number of shares repurchased were 6.1 million for an average price per share of \$20.12. Of these shares, \$64.6 million of treasury share purchases were settled at the beginning of fiscal 2010. During the 26 weeks ended July 31, 2010, the Company repurchased an additional 9.0 million shares for an average price per share of \$19.56. In September 2010, the Board of Directors of the Company approved an additional \$300 million share repurchase program

---

[Table of Contents](#)

authorizing the Company to repurchase its common stock. For the remainder of fiscal 2010, the Company purchased an additional 10.5 million shares for an average price per share of \$20.35. Of these shares, \$22.0 million of treasury share purchases were settled at the beginning of fiscal 2011.

In February 2011, the Board of Directors authorized the Company to use \$500 million to repurchase shares of the Company's common stock and/or retire the Company's Senior Notes. Under the repurchase program, the Company may purchase the Company's Senior Notes and/or shares of issued and outstanding Class A Common Stock through open market purchases, debt calls or privately negotiated transactions. The timing and actual amount of debt or share repurchases will be determined by the Company's management based on their evaluation of market conditions and other factors. In addition, repurchases may be suspended or discontinued at any time. As of July 30, 2011, \$152.4 million of the \$500 million repurchase plan has been used to purchase the Company's common stock, representing 7.3 million shares at an average purchase price of \$20.91, and no amount has been used to retire the Senior Notes, with \$347.6 million remaining under the existing authorization. As of August 29, 2011, the Company notified the Trustee of its intent to purchase \$125 million of the Company's Senior Notes on or about October 1, 2011.

Based on our current operating plans, we believe that available cash balances, cash generated from our operating activities and funds available under the Revolver will be sufficient to fund our operations, required payments on the Senior Notes, digital initiatives, store expansion and remodeling activities and corporate capital expenditure programs for at least the next 12 months.

### **Disclosure Regarding Forward-looking Statements**

This report on Form 10-Q and other oral and written statements made by the Company to the public contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The forward-looking statements involve a number of risks and uncertainties. A number of factors could cause our actual results, performance, achievements or industry results to be materially different from any future results, performance or achievements expressed or implied by these forward-looking statements. These factors include, but are not limited to:

- our reliance on suppliers and vendors for sufficient quantities of their products and for new product releases;
- general economic conditions in the U.S. and internationally and specifically, economic conditions affecting the electronic game industry, the retail industry and the banking and financial services market;
- alternate sources of distribution of video game software and content;
- alternate means to play video games;
- the competitive environment in the electronic game industry;
- the growth of mobile, social and browser gaming;
- our ability to open and operate new stores;
- our ability to attract and retain qualified personnel;
- our ability to effectively integrate acquired companies, including digital gaming and technology-based companies that are outside of the Company's historical operating expertise;
- the impact and costs of litigation and regulatory compliance;
- unanticipated litigation results, including third-party litigation;

- the risks involved with our international operations; and
- other factors described in the Form 10-K, including those set forth under the caption “Item 1A. Risk Factors.”

In some cases, forward-looking statements can be identified by the use of terms such as “anticipates,” “believes,” “continues,” “could,” “estimates,” “expects,” “intends,” “may,” “plans,” “potential,” “predicts,” “pro forma,” “should,” “seeks,” “will” or similar expressions. These statements are only predictions based on current expectations and assumptions and involve known and unknown risks, uncertainties and other factors that may cause our or our industry’s actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. You should not place undue reliance on these forward-looking statements.

Although we believe that the expectations reflected in our forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise after the date of this Form 10-Q. In light of these risks and uncertainties, the forward-looking events and circumstances contained in this Form 10-Q may not occur, causing actual results to differ materially from those anticipated or implied by our forward-looking statements.

### **ITEM 3. *Quantitative and Qualitative Disclosures About Market Risk***

#### **Interest Rate Exposure**

We do not use derivative financial instruments to hedge interest rate exposure. We limit our interest rate risks by investing our excess cash balances in short-term, highly-liquid instruments with a maturity of one year or less. In addition, the Senior Notes outstanding carry a fixed interest rate. We do not expect any material losses from our invested cash balances, and we believe that our interest rate exposure is modest.

#### **Foreign Currency Risk**

The Company uses forward exchange contracts, foreign currency options and cross-currency swaps (together, the “Foreign Currency Contracts”) to manage currency risk primarily related to intercompany loans denominated in non-functional currencies and certain foreign currency assets and liabilities. The Foreign Currency Contracts are not designated as hedges and, therefore, changes in the fair values of these derivatives are recognized in earnings, thereby offsetting the current earnings effect of the re-measurement of related intercompany loans and foreign currency assets and liabilities. For the 13 and 26 week periods ended July 30, 2011, the Company recognized gains of \$11.3 million and \$2.0 million, respectively, in selling, general and administrative expenses related to the trading of derivative instruments. These gains were offset by losses related to the re-measurement of intercompany loans and foreign currency assets and liabilities of \$12.0 million and \$4.3 million, respectively. The aggregate fair value of the Foreign Currency Contracts as of July 30, 2011 was a net asset of \$2.4 million as measured by observable inputs obtained from market news reporting services, such as Bloomberg and The Wall Street Journal, and industry-standard models that consider various assumptions, including quoted forward prices, time value, volatility factors, and contractual prices for the underlying instruments, as well as other relevant economic measures. A hypothetical strengthening or weakening of 10% in the foreign exchange rates underlying the Foreign Currency Contracts from the market rate as of July 30, 2011 would result in a (loss) or gain in value of the forwards, options and swaps of (\$18.9 million) or \$18.9 million, respectively.

We do not use derivative financial instruments for trading or speculative purposes. We are exposed to counterparty credit risk on all of our derivative financial instruments and cash equivalent investments. The Company manages counterparty risk according to the guidelines and controls established under comprehensive risk management and investment policies. We continuously monitor our counterparty credit risk and utilize a number of different counterparties to minimize our exposure to potential defaults. We do not require collateral under derivative or investment agreements.

**ITEM 4. Controls and Procedures**

(a) Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, the Company's management conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) at the reasonable assurance level. Based on this evaluation, the principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives and that the Company's disclosure controls and procedures are effective at the reasonable assurance level. Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in the Company's periodic reports.

(b) Changes in Internal Control Over Financial Reporting

There was no change in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II — OTHER INFORMATION**

**ITEM 1. Legal Proceedings**

In the ordinary course of the Company's business, the Company is, from time to time, subject to various legal proceedings, including matters involving wage and hour employee class actions. The Company may enter into discussions regarding settlement of these and other types of lawsuits, and may enter into settlement agreements, if it believes settlement is in the best interest of the Company's stockholders. Management does not believe that any such existing legal proceedings or settlements, individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or liquidity.

There have been no material developments in previously reported legal proceedings during the fiscal quarter covered by this Form 10-Q.

**ITEM 1A. Risk Factors**

In addition to the other information set forth in this Form 10-Q, you should carefully consider the factors discussed in "Item 1A. Risk Factors" in our Form 10-K for the fiscal year ended January 29, 2011 filed with the SEC on March 30, 2011. These risks could materially and adversely affect our business, financial condition and results of operations. The risks described in our Form 10-K have not changed materially, however, they are not the only risks we face. Our operations could also be affected by additional factors that are not presently known to us or by factors that we currently consider immaterial to our business.

**ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds**

Purchases by the Company of its equity securities during the fiscal quarter ended July 30, 2011 were as follows:

**ISSUER PURCHASES OF EQUITY SECURITIES**

	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs(1)

SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, J. Paul Raines, certify that:

1. I have reviewed this report on Form 10-Q of GameStop Corp.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
